K.F. Breene : Jameson (Darkness #9) before purchasing it in order to gage whether or not it would be worth my time, and all praised Jameson (Darkness #9):

4 of 4 people found the following review helpful. Absolutely loved it!!By MEXICANCUTIEThe Darkness series is one of my favorites and I was so happy when I found out we would be getting Jameson. I love the sexy broody alphas that K.F. Breene writes so well. It is a novella so it was a quick read but I loved it. It was great to get glimpses of the Vamps, shifters and feisty humans I have come to enjoy and I will definitely be starting the entire series over and will try take my time reading it again. This series has action, sex, laugh out loud moments, and a perfect mix of supernatural characters.It is a fantastic read that I highly recommend. Just READ THIS SERIES!!!Thank you K.F. for my Darkness fix!! I am a true Darkness junkie and proud of it!!2 of 2 people found the following review helpful. KF Breene rocks, and so do her characters!By Holly SlaskiI truly love the Darkness series and I have from the first book. The characters are so well crafted that, even in a book this short, you get sucked in and don't breathe until the end comes about. Then you wish there was more to read so you can stay with the characters that little bit longer. And I haven't exactly read the books since shortly after book 8, Charles' and Anne's story, came out and I was still able to pick up the thread of what had come before without feeling like I had to go back and reread everything. The characters still felt so familiar, like coming home, and it was great. Although now I think I will reread a couple of the other books just to reimmerse myself in the storyline and interact with the characters that little bit longer. That's how good her writing is!2 of 2 people found the following review helpful. Great SeriesBy Nicole LockerK.F. Breene is at it again. I loved the Darkness series, and Jameson (Book #9) was no exception. While it was much shorter than the other books, it was entertaining and still had that steamy romance that Breene is known for (at least that I know her for!).I found that I didn't connect all that well with the new character, Addison, in this story. I think that is partly because she hasn't been a character up til now in this series and I don't know much about her, and the story wasn't long enough to really divulge much about her to forge a very strong connection. But I did find it entertaining to get to know Jameson, a familiar character, a little better.I find Breene's writing to be entertaining and easy to read. Definitely one to follow.

A special holiday novella for the USA Today Bestselling Darkness Series With his friends matched up and kids running around, Jameson expects this holiday season to be like the last couple: uneventful, fraught with parties hersquo;ll have to attend as the only single guy, and above all, quiet. That is, until a strange entity is suspected to be creeping around the shifter compound. Suddenly, it looks like the humans researching shifters are back, and the only person who can keep them safe is one of Jameson's kind.Teamed with the new beta of Tim's pack, a fiery shifter who has fought her way to the top, suddenly Jameson's lifelong aversion to shifters is tested. He must face

his mistrust, the enemy, and above all, the holiday mirth hersquo;s tried so desperately to avoid.
